ATTACHMENT TO ADVISORY ACTION

Response to Amendment

1. The amendment filed 02 July 2010 will not be entered because it raises new issues requiring further consideration and search, specifically that claim 1 has been amended to recite a positioning device "having at least one second cavity", an opening "arranged in a lower surface of said at least one second cavity" a ventilation opening "arranged in an upper surface of said at least one second cavity" and claim 7 has been amended to recite that the body is comprised of "an auxiliary" cavity, which narrows the scope of the claims requiring new search and consideration.

It is noted that the claim amendments would overcome all claim objections and rejections under 35 U.S.C. §112, first and second paragraphs.
